

# Building Atlantic Canada together

## We create communities throughout Atlantic Canada together

Communities are fundamental. Whether around the corner or across the globe, they provide a foundation, a sense of place and of belonging. That's why at Stantec, we always design with community in mind.

We care about the communities we serve—because they're our communities too. As the largest professional consulting firm in Atlantic Canada, our eight office locations are home to more than 750 staff. Our strong local presence allows us to assess what's needed and connect our expertise, to appreciate nuances and envision what's never been considered, and to bring together diverse perspectives and collaborate toward shared success.

We're designers, engineers, scientists, and project managers, innovating together at the intersection of community, creativity, and client relationships. Balancing these priorities results in projects that advance the quality of life in communities across the globe. Stantec trades on the TSE and NYSE under the symbol STN. Visit us at [stantec.com](http://stantec.com) or find us on social media.
